FEDERAL ENERGY REGULATORY COMMISSION

Electronic Tariff Filings

Docket No. RM01-5-000

NOTICE OF POSTING OF INFORMATION AND
ESTABLISHMENT OF RSS FEED

(February 23, 2009)

In Order No. 714,¹ the Commission adopted regulations requiring that, as of April 1, 2010, tariff and tariff related filings must be made electronically according to a set of protocols and standards. A website (<http://www.ferc.gov/docs-filing/etariff.asp>) and an email address (etariff@ferc.gov) have been established to provide information, and respond to questions, about the protocols and standards.

The information on the website needs to be updated and revised from time to time. Answers to the questions received through email also may be of value to software providers and companies other than the requester. In order to ensure that all vendors and providers have access to this information, the questions and answers will be posted on the website under the “Staff’s Response to Discussion Questions” link. Similar questions may be grouped together with a single response.

The following revised documents are being posted: Preliminary FERC eTariff Rules Table, Type of Filing, Attachment Reference Code, and Staff’s Response to Discussion Questions. The Staff’s Response to Discussion Questions has been revised to organize better the previous information posted with respect to the December 3, 2008 technical conference and to add additional information. In addition, the dates on which each item is revised will be listed so that viewers can more easily determine the new items that have been added as the document is revised.

Because these documents will be updated and revised on a regular basis, a Secretary’s Notice will not be published for every change made on the eTariff website. Instead, an RSS feed has been established for the web site so that software companies and vendors can be alerted when information on the site is revised. Anyone may subscribe to the RSS feed which is located at <http://www.ferc.gov/xml/etariff.xml>.
